

**When a SICO® Mobile Sleeper  
goes down, your profits go up!**

**Now there is a perfect way to solve room mix or added capacity needs. Simply move a SICO® Mobile Sleeper to where the guests are.**

**You can maximize your income because the SICO® bed offers conventional sleeping comfort. You don't have to worry about maintenance, because there are no moving parts (except the wheels, of course).**

**Think of the SICO® Mobile Sleeper as the profitable alternative to the old-fashioned rollaway, and a versatile addition to aggressive room marketing.**

**Offer your guests the most comfortable extra bed in the market; SICO's® Mobile Sleeper.**  
**SICO's® Mobile Sleeper makes for a memorable sleep experience.**

- Your guests will appreciate the comfort of a SICO® Mobile Sleeper, with its nice thick innerspring mattress that never needs to be folded, along with the added comfort of a 4" (10cm) foundation (which you won't find in any roll-away bed that folds). With SICO® Mobile Sleepers, you won't have to apologize to guests for the look or comfort of a folding rollaway.

- Housekeepers around the world find SICO's® Mobile Sleepers easy to transport, as the lightweight design allows them to roll quietly through hallways on four casters. The end legs and pivot points also make them easy to lower for use or raise for moving about.

- The foundation is wrapped with a handsome burgundy vinyl on its edges and back that matches the burgundy powdercoat finish on the frame. The vinyl wrap on the foundation also makes it very easy to keep clean and adds to the life of the Sleeper.

- No moving parts means no hinges to catch sheets or pinch fingers.

- An adjustable strap with fastener holds a pillow in place during transport and storage. The strap fastens safely out of sight under the bed when the bed is readied for use. The bedding is held to the frame by a separate figure-eight strap, which allows bedding to be tucked in on all sides of the mattress.

- SICO® uses fire-retardant Damask ticking on both the foundation and the mattress.

- A durable plastic laminate headboard includes an Armor-Edge® to protect its appearance.

**SICO® Mobility:**

- Bed is designed so leg becomes a handle in transit.
- Four 3" (8cm) swivel casters allow bed to be easily rolled to wherever it is needed.
- Bed conveniently fits through standard height doorways while in the vertical position.
- Dimensions for model #BMS1211P:

**Standard Mobile Sleeper**
