It's a good bet that anyone who has played at a table game in a Las Vegas casino has sat on a Gasser stool, and odds are good they were comfortable.

Gasser's extremely durable and exceptionally comfortable seating can't help but improve the odds that your table game players will play longer, return to play again and again, and recommend your place to their friends!

Gasser chairs don't merely perform... they **dazzle!**

The Gasser logo, featuring the word "gasser" in a white, lowercase, sans-serif font, centered within a dark blue rectangular background.
