### BLACK GOLD IN THE SPOTLIGHT

Visual impact plays a huge role in enhancing the pleasures of the palate – and coffee is no exception. Now the **Nachtmann Barista Collection** offers the perfect glass for every kind of speciality coffee. Golden brown crema, snowy foam enhanced by latte art, the rich interplay of colours – coffee aficionados can now choose from four glasses in two strikingly attractive faceted cuts. The range spans glasses for espresso/doppio and cappuccino, a classic coffee mug with handle, and a tall, slim glass for latte macchiato and cold brew. The hotly anticipated **NACHTMANN ETHNO and NOBLESSE series** are the perfect surprise for all coffee connoisseurs. The attractively decorated exterior is useful as well as ornamental; **it deflects the heat** and allows the glass to be held comfortably despite its hot contents.

NACHTMANN

### **AROMA BOOSTER**

The slim, slightly flared lines promote the development of aroma for all black coffee types.

NACHTMANN

### **CREMA BOOSTER**

The base is gently domed to prevent the crema from thinning and stabilize its structure at the center.
