ABOUT THE V-SHIELD COLLECTION

Mogogo's "Free Standing" V-Shield System was designed for safety, without sacrificing quality and aesthetics.

It can be utilized on most surfaces of any length with adaptive features to turn corners and shield the edges.

The system consists of two different size guards with the option of a full or partially full-length acrylic panel, depending on the specific application.

The V-Shield legs are equipped with magnets, alignment notches and anti-slip pads for additional stability and a clean gap-free appearance.

MATERIALS

The V-Shield System is made of hygienic and durable materials to ensure it holds up under challenging conditions.

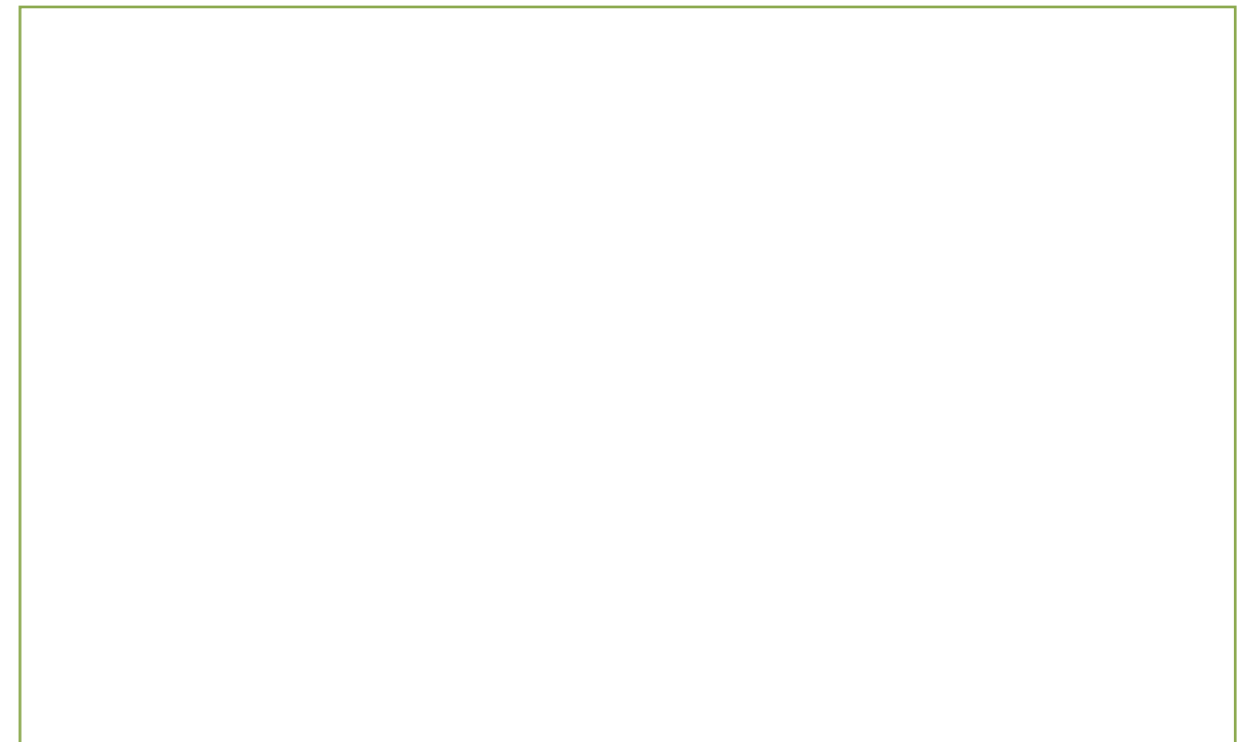

(1) 1/4" (6mm) thick Acrylic Panel

(2) 1/4" (6mm) thick Stainless Steel Base

(3) Tailor-made powder coated aluminum profile uprights.

HOW IT WORKS

V-Shields are delivered flat packed and can be assembled in minutes with an Allen Key. With the wide and narrow shields, combined with the corner and end panels, creating a safe and functional configuration for your application has never been easier.

UNIQUE FEATURES

CORNER PANELS

The V-shield corner panels are designed to create configurations that require tight corners or a gentle radius, while maintaining a tight seal.

END PANELS

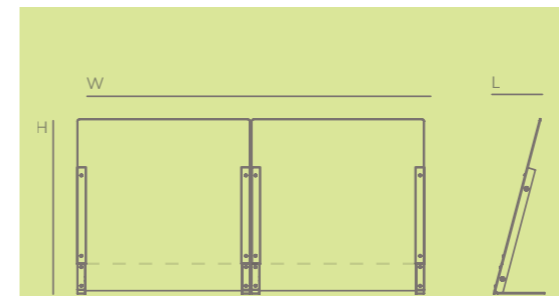

The V-Shield end panels are aimed to complete any guard configuration and provide a safe environment for both the guest and server.
